Guide

Computer- and Media Service and University Library for new staff members of Humboldt-Universität
Dear professors,
dear staff members,
dear ladies and gentlemen,

the University Library (UB) and the Computer and Media Service (CMS) team would like to bid you a cordial welcome to Humboldt-Universität.

We hope your time at the University will be successful and fulfilling; and that you will be able to combine profound knowledge and academic excellence together with a pleasant working experience.

The following guide is designed to inform you of the special services on offer from the University Library (UB) and Computer and Media Services (CMS) for Humboldt-Universität staff members. It should also form the basis for a pleasant professional relationship.

We see ourselves as mediators of information at Humboldt-Universität and consider this guide to be the start of a long-lasting academic relationship. Please do not hesitate to contact us if you are interested in any of the offers mentioned in this guide. We look forward to your visit.

Attention:
Due to Corona situation we are not able to offer all services. Please refer to our website: www.ub.hu-berlin.de

Sincerely Yours,
The University Library (UB)

Services for new members of HU – Provided by Computer- und Medienservice (CMS) and the University Library (UB)

**Services for HU Members**

**Access**
- **VPN**: Secure, encrypted remote access to the HU network
- **HU-Desktop**: Remote access to a full-featured Windows machine including a number of apps
- **Wifi**: Free wifi network at HU and participating partners
- **Library card**: Access to personal library account
- **HU-Account**: Zentraler Account für CMS-, UB- und HU-Leistungen
- **public computer workstations**: offering a wide range of academic and office applications, available at all HU libraries
- **Primus Gateway**: search portal of the University Library

**Communication**
- **Mailinglists**: Group communication and collaboration via mail
- **Mail**: HU mail accounts for employees
- **Videoconferencing**: Communication and collaboration with external and HU partners
- **UB reference librarians**: support regarding subject-specific question, or questions regarding book suggestions

**Collaboration**
- **HU-Box**: File sharing and synchronization including a web-based office suite
- **Moodle**: Online course management including e-assessment and collaboration tools
- **Media Repository**: Storage, organisation and collaborative processing of media files
- **Calendar**: web-based calendar for coordination
- **Videoconferencing**: Communication and collaboration with external and HU partners

**Library Services**
- **Primus Gateway**: search portal of the University Library
- **edoc Server/Open Access**: Publication of academic publications
- **Electronic resources**: large range of electronic journals, e-books, databases and other resources
- **Appointment-related funds/Third-party funds**: Procurement and processing of materials financed from such funds
- **Semester collections**: collections of those books students should read for their courses
- **Book suggestions**: Book suggestions may be submitted at any time to the reference librarian
- **Digitisation orders**: copyright free books are made available as E-Books on Demand
- **Interlibrary loans**: loan from other libraries

**Support Services**
- **User Help Desk**: First-level support for IT
- **Library Help Desk**: Support for researching and procuring literature
- **Print-/Scan Services**: Laser prints up to A3 and Large-format printing
- **Guided Tours/Trainings**: Guided tours through libraries and trainings in cooperation with individual departments
- **Software Services**: Campus licences for academic and general software
- **Deposit copies**: permanently archive a copy of your work
- **Borrowing/returning materials**: where and how to return materials
- **Accessibility at UB**: Services such as extended lending periods or assistance with literature compilation for people with disabilities
UB and CMS from A to Z

Accessibility: Services for disabled people

Extended lending periods
Disabled people can make use of extended lending periods. For this purpose, please present your disability certificate when registering for a library account. You can lend all holdings marked as „for issue“ for a period of three months.

Using reference holdings
Non-lendable reference holdings of all branch libraries can be delivered on demand to one of the following libraries:
- Jacob-und-Wilhelm-Grimm-Zentrum
- BL Science / Erwin-Schrödinger-Zentrum
- BL Campus Nord

All three branch libraries offer barrier-free access and workstations for physically disabled or visually impaired people. Registered users can either contact staff on-site.

Assistance with literature compilation
People who cannot independently take material out of the shelves can approach our staff for support during the service hours of the branch library. We are happy to compile the necessary literature for you. Please send us a list with the respective call numbers in advance or hand one in at one of the service desks.

A detailed overview of our services for disabled users can be found here:
www.ub.hu-berlin.de/barrierefreiheit

In case of any queries, feedback or criticism please contact barrierefreiheit@ub.hu-berlin.de

AGNES – Online Courses and Examinations

In AGNES – the Online Courses and Examinations portal – students will find all courses offered. It is the course catalogue of Humboldt-Universität, but AGNES can take this a step further, allowing teachers to upload and update their courses. If a course has limited student places available or if a course is offered on several alternative dates within a semester, AGNES lets you set up online registration and limit the number of participants. After the course participants have been selected, teachers can access the lists of participants in AGNES. Teachers may also contact their students via this system.

Apart from course management, AGNES offers teachers examiner functions, i.e. viewing and grading of assignments for their own examinations.

AGNES – step by step

If you want to view your courses in AGNES and update them, communicate your account to the AGNES administrators of your unit/department and inform them that you wish to use AGNES as a teacher. They will grant you the necessary access rights, provided this is common practice at your unit. If you want to use the examiner functions in AGNES, you should inform the examination office of your unit. Your examination office will then take the necessary steps.

Login into AGNES: Immediately after login you will find the functions you will use most often for your teaching purposes in the left menu bar. Further functions may be selected from the other menu options.

If you have any further questions please use the help page (https://agnes.hu-berlin.de/hilfe – German) after logging into AGNES or contact the AGNES support team directly at agnes@hu-berlin.de.

https://agnes.hu-berlin.de
Applying for a HU account
In order to open a HU account, please submit an application in writing to CMS User Services. You will find further information and a downloadable PDF of the application form (under “Account, application/activation”) at the following web address:

Appointment-related funds/Third-party funds
Procurement and administrative processing of materials financed from appointment-related or third-party funds is made by the branch library in charge of the department concerned. You may decide whether materials are to be held in the University Library or as a personal reserve shelf according to the conditions stated below (see Personal reserve shelves).

Book suggestions
The University Library welcomes the assistance of teachers suggesting materials oriented towards research, teaching and study requirements to be included in the collection. Book suggestions may be submitted at any time to the reference librarian in charge using the online form.
https://www.ub.hu-berlin.de/anschaffungsvorschlag

Calendar service
The administration of individual appointment calendars, invitation management, maintenance of an individual address book and task list are all possible via this service. Access can be through separate applications available for Windows, MacOS and Linux, or a web interface as required. Synchronisation with various mobile terminals is possible.
https://hu.berlin/kalender (German)

CMS User Help Desk
Please contact our CMS User Help Desk for all questions regarding the use of University Library and HU accounts. We will gladly put you in contact with our experts.
https://www.cms.hu-berlin.de/de/portal/mitarbeiter/staff

Deposit copies
The University Library also showcases the research results generated by the scholars of Humboldt-Universität. We offer you the opportunity to permanently archive a copy of your work, provided you send us deposit copies of your publications.
https://www.ub.hu-berlin.de/geschenkannahme

Digitisation orders
Upon request, copyright free books from the holdings of the University Library are made available to researchers of Humboldt-Universität by EOD service (E-Books on Demand). For a digitisation order please contact us at:
ub.digitalisierung@ub.hu-berlin.de

Electronic resources
The University Library has licensed a large range of electronic journals, e-books, databases and other resources. As a staff member of Humboldt-Universität you may access most of the electronic resources licensed by the University Library via VPN (virtual private network) even from outside the University. Please contact the CMS for the most appropriate technical solution.
https://hu.berlin/vpn
HU Box – Cloud Storage

HU Box is a secure and mobile, cloud-based storage solution for files and offers a cloud-based office suite for collaborative editing of text documents, sheets as well as presentations. All files are hosted at CMS data centers and can be accessed from any internet-enabled device. HU Box offers file sharing and collaboration solutions as well as a personal, synchronized data storage solution (file synchronization). Data can be shared with external partners to enable cross-institutional collaboration of researchers and research groups.

https://hu.berlin/hu-box (German)

Interlibrary loans
You may borrow items not available at the University Library via interlibrary loan from other libraries. The University Library will bear any related expenses.

https://www.ub.hu-berlin.de/fernleihe

HU-Desktop
CMS offers „HU Desktop“, a full-featured virtual Windows computer, via SaaS (“Software as a Service”). It offers a wide range of applications that can be accessed via webinterface or RDP (Remote Desktop Protocol).

https://hu.berlin/hu-desktop (German)

Loan conditions
UB loan conditions may vary from branch library to branch library. Please ask on site.

Late fees
Pursuant to the UB Borrowing and Loan Policy, all users (including professors) who exceed a loan period will be charged a late fee. Per item, this fee will amount to € 2.00 at the first stage, a further € 5.00 at the second stage, and then a further € 13 at the third stage.

Library card
As a staff member of the Humboldt-Universität, you can apply for a special (orange) library card. It is visually distinct from other library cards and is instantly recognisable as having special borrowing privileges. At first it is necessary to register online via „opt-in“. This card is available at every UB branch and will be automatically renewed by IDM. For professors, we have introduced a special primary and secondary card system. This allows you to assign secondary account users who will have a card to your account and will be able to perform actions on your behalf, e.g. borrowing books. However, the responsibility for potential losses or late fees remains with you. Lending of books is only possible with a valid email address in the user account.

https://almacon.ub.hu-berlin.de/shibboleth/optin

Loan periods
Staff members of Humboldt-Universität are allowed longer loan periods than other users. The standard loan period is 56 days, which can be extended to 6 months, if an item has not been reserved. Short or day loans are limited to 28 days. The Law branch library has shorter loan periods.

For further details regarding individual loan conditions please contact us in person.

Non-lending collections
Reference books, items in high demand, historical collections and periodicals are not on loan and can only be viewed on site.

Number of loans
Professors and other staff members of Humboldt-Universität may borrow up to 100 items from the University Library and all its branches at any one time.

Mail
HU members get a mail account on the CMS’ servers. Mails can be accessed via mail clients or webmail services provided by CMS. Additionally, mails can be authenticated and encrypted via certifi-
Mailinglists
Mailing lists provide a convenient option to set up and manage distribution lists with a large number of recipients. Mailing lists receive their own mail address and can be archived, enabling users to search through old contributions to the list.

Mailing lists (German)

Media-Repository
With the Media Repository, the CMS provides a new system for managing digital media data. In addition to images and text, audio and video content are also directly supported. The system offers support for a wide range of file formats and metadata. It stores and sorts media data and helps organise work with them. The Media Repository assists both smaller teams and larger research projects with the administration and long-term backup of media content.

Media-Repository (German)

Moodle: Online course management / Organisation platform
HU-Moodle is the HU's virtual learning platform and basis for digital classes. It serves as a hub for teaching staff to offer their content: synchronous classes via webinar, digital teaching material and even online exams can be made available. Students can organise in virtual rooms and hand in their work digitally.

Additionally, HU-Moodle can be used to support classes, projects or committees – where-ever web-based communication in open or limited-access helps organize your work.

Moodle: Online course management (German)

Open Access
Open Access means free and public access to scientific results via the Internet. Users have unlimited access to read, copy, distribute, print, search in, refer to and use full text versions in any other legal way they like - without hitting financial, legal or technical barriers. Please contact our team (openaccess@ub.hu-berlin.de) if you have any queries about open access publishing or if you need help understanding the different models of open access.

Ordering materials from other libraries (Subito)
You may order items from other libraries online via the Subito document delivery service. The University Library will bear the related expenses provided that the requested periodical or volume is not available at the University Library.

Ordering materials from other libraries (German)

Personal reserve shelves
Personal reserve shelves are holdings financed from appointment-related funds (see above) or third-party funds and purchased by the University Library. They are available for a longer period outside the library, i.e. from professors or in project rooms of Humboldt-Universität. These materials are the property of the University and as such belong to the UB stock. Professors or project leaders are responsible
in person for this stock. Please name a contact person to whom questions and requests may be directed. Materials are purchased via the Jacob-und-Wihelm-Grimm-Zentrum or by the competent branch library. Periodicals, sequels or loose-leaf publications as well as print doublets are not part of personal reserve shelves. As a rule, personal reserve shelves should not include more than 100 items. In case of interest please contact your reference librarian (see below).

Primus Gateway
Primus is the search portal of the University Library. Thanks to modern search technology, you may search for books, periodicals and journal articles in printed as well as in digital format at the same time with only one search entry. In addition, availability of items is checked and you will be shown how to get printed copies, as well as direct access to digital full texts.

https://primus.ub.hu-berlin.de

Print and scan services
The range of services includes laser prints up to A3 oversize format including duplex printing, large size formats up to A0 and banner oversize formats, scanning of reflective items and folding of paper formats up to A3. Depending on the volume of a print job a contribution to printing costs may apply. If you have any questions regarding layout/ graphical design please do not hesitate to contact us.

https://hu.berlin/printservice  (German)

Publishing online – edoc server
The document and publication server provides edoc the organisational and technical general conditions for the electronic publication of scientific documents. As part of this joint offer by the Computer and Media Service and the University Library, scientific documents of high relevance are provided via the internet for research and teaching purposes, with adherence to quality standards. The edoc server represents the technological basis for implementing the ideas formulated in the Humboldt-Universität zu Berlin Open Access Declaration.

https://edoc.hu-berlin.de/?locale-attribute=en

Reproduction services (print, scan, photocopy)
The University Library has transferred photocopying and other reproduction services to Ricoh, Copy, Print@nd more. Payment is made with a MensaCard. You may get MensaCards for this purpose from the secretary’s office of your department. Printing and photocopying is not permitted in the research reading room of the Jacob-und-Wilhelm-Grimm-Zentrum. Only scanning is allowed – please bring your own USB stick.

Research Data Management
The Research Data Management Initiative advises and supports scientists, research groups and projects as well as university departments in the management and digital preservation of their research data. Furthermore the Initiative offers workshops and provides information material about its services.

Research reading room at the Jacob-und-Wilhelm-Grimm-Zentrum
In the research reading room of the Jacob-und-Wilhelm-Grimm-Zentrum items from valuable historical holdings and special collections are available for viewing but cannot be taken off site. The freely accessible non-lending collections focus on the cultural, social and humanities history of the 19th century (under construction). The holdings and special collections are managed by the Historical Collections unit that will gladly help you with your search. In the research reading room, workstations are reserved for professors, staff members of Humboldt-Universität and doctoral students.
https://www.ub.hu-berlin.de/forschungslesesaal

Returning materials to UB branches
Items belonging to the Jacob-und-Wilhelm-Grimm-Zentrum, Erwin-Schrödinger-Zentrum and Campus Nord and Branch Library of Foreign Languages/Literatures may be returned to any of the four branches named. All other materials must be returned to the branch library from which they were borrowed.

Semester collections
The University Library offers semester collections of those books students should read for their courses. At the branch libraries, please contact the library staff in time regarding the library’s procedure. At the Jacob-und-Wilhelm-Grimm-Zentrum, please submit your reading list by 15 March (for the summer semester) or by 15 September (for the winter semester) to ub.semesterapparate@hu-berlin.de. Please always give your name and the name of your department and the AGNES course number. Please also give all bibliographical data, including call number and, if necessary, the holding branch library. You can also specify which titles should be purchased.

Termination of employment with Humboldt-Universität
Concerning former staff members of Humboldt-Universität, the University Library makes a distinction between those who have moved to another institution and those who have left Humboldt-Universität to go into retirement (this also includes emeriti).

Moving to another institution
Of course you may continue to use the University Library – but we will no longer be able to grant you special borrowing privileges. The handing over of personal reserve shelves from one professor to another may only be done through the University Library and not by the professors directly.

Retiring from Humboldt-Universität
You will continue to benefit from most of the borrowing privileges granted to staff members of Humboldt-Universität, with the exception that you will now only have on-site access to our electronic resources. You will also no longer be able to add any secondary cards to your primary library card.

Tours
At the beginning of the semester the University Library offers introductory events at many branches. We will also gladly hold highly specialised introductions as part of your course. For information events aimed at tutor groups or students in higher semesters, please contact the reference librarian in charge or the head of the branch library directly.
https://www.ub.hu-berlin.de/fuehrungen_und_schulungen
**Using public computer workstations**

The public computer workstations (ÖCAP) at Grimm-Zentrum (Mitte) and Schrödinger-Zentrum (Adlershof) as well as at the other branch libraries may be used by all staff members with a Windows or a library account. You may upgrade your HU account to a Windows account with the help of your IT officer. With the Windows account, you can surf on the Internet, use a wide range of software and print on every printer available on the campus. Furthermore, your HU account offers a personal home drive and e-mail address not included in the library account.

[https://www.cms.hu-berlin.de/de/portale/mitarbeiter/](https://www.cms.hu-berlin.de/de/portale/mitarbeiter/)

**Video conferences**

For worldwide video conferences with partners at home and abroad, staff members of the Humboldt-Universität can book rooms of varying sizes on either Campus Mitte or Campus Adlershof. Additionally, the CMS video conference support team advises on matters of technology and equipments, provides hardware and hosts a range of video conferencing solutions for HU members.

[https://hu.berlin/videoservice](https://hu.berlin/videoservice)

**VPN**

The HU’s computer network can be accessed from without via VPN (Virtual Private Network). This provides access to many services that usually require a physical presence on campus, such as limited-access library databases, personal network shares and other restricted resources. Additionally, the VPN connection is encrypted to provide an enhanced layer of security.

[https://hu.berlin/vpn](https://hu.berlin/vpn) (German)

**WiFi – The WiFi network of the Humboldt-Universität**

Wireless LAN (wifi) at Humboldt-Universität enables all staff members and students to connect their (private) mobile devices to the Internet. This requires a HU account ([https://www.cms.hu-berlin.de/en/portale-en/mitarbeiter-en/staff](https://www.cms.hu-berlin.de/en/portale-en/mitarbeiter-en/staff)) and a wifi/WPA2-compatible device. Humboldt-Universität is a member of the worldwide “education roaming” access system – in short: eduroam – ([www.eduroam.org](http://www.eduroam.org)). This allows you login to the wifi network via your HU account, even when you’re at other member institutions.
